

Prashant Chhetry

Full Stack Developer | React • Next.js • Node.js • Agentic AI

India | your-email@example.com | GitHub: github.com/popprash | Portfolio: your-domain.com

Professional Summary

Passionate Full Stack Developer and fourth-year Computer Science student with experience building modern web applications and AI-powered tools using React, Next.js, TypeScript, Node.js, Express, MongoDB, and LangGraph. Seeking Software Engineering opportunities where I can contribute, grow, and learn.

Technical Skills

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, Vite

Backend: Node.js, Express.js, REST APIs, JWT, Appwrite

Databases: MongoDB, PostgreSQL, Drizzle ORM

AI: LangGraph, LangChain, LangSmith, Groq, RAG, Streamlit

Tools: Git, GitHub, Linux, Docker, Postman, VS Code, npm

Projects

DevEvents – Next.js platform for discovering tech events and booking slots.

Netflix Clone – Full-stack streaming platform with JWT authentication and TMDB integration.

X Clone – Social media application with authentication, posts, and user profiles.

AI Chatbot – LangGraph + LangSmith + Groq powered conversational assistant.

Movie Discovery – TMDB + Appwrite application featuring a custom trending algorithm.

Product Store – MERN CRUD application with REST APIs.

Education

B.Tech in Computer Science (Expected Graduation: 2027)

Areas of Interest

Full Stack Development • Agentic AI • Modern Web Development • Backend Engineering • Open Source • Cloud Technologies

Soft Skills

Problem Solving • Continuous Learning • Communication • Adaptability • Team Collaboration
